

## Recycled Content Declaration

ARAUCO North America domestic composite panels are manufactured with recycled and/or recovered wood fiber and may help achieve credit in several programs where use of materials containing recycled content is recognized, such as the U.S. and Canadian Green Building Council (USGBC, CaGBC) Leadership in Energy & Environmental Design (LEED), Green Globes certification, ANSI/BIFMA e3 Furniture Sustainability Standard, KCMA's Environmental Stewardship Program (ESP), and MDBC Cradle to Cradle® Certification Program.

The table below details wood-related raw material information by mill for composite panel products. Note that numbers provided are calculated mill averages (percent by weight) for all products made at that facility.

Mill	% Wood Solids	% Other Components - Resin Solids, Other Additives	% Pre-consumer (Post-industrial) Recycle <sup>1</sup> in Raw Material	% Post-consumer Recycle <sup>1</sup> in Raw Material	% Recovered <sup>2</sup> in Raw Material	% Recycled/Recovered in Raw Material
